

# CROSS COUNTRY SKIING

## AGE GROUP(S)

- U12: 11 - 12 years of age - born in 2008 or 2009 (2 males, 2 females)  
 U14: 13 - 14 years of age - born in 2006 or 2007 (3 males, 3 females)  
 U16: 15 - 16 years of age - born in 2004 or 2005 (3 males, 3 females)

## ZONE TEAM COMPOSITION

The maximum team size shall be:

- 16 athletes per Zone (# of females 8 # of males 8)  
4 coaches or chaperones per Zone (# of females min. 2 # of males min. 2)

In the case a Zone has less than 10 competitors the Zone will be allocated a maximum of 2 coaches / chaperones.

Any additional coaching spots, up to a maximum of 24 as per the Alberta Sport Connection quota for the Alberta Winter Games, will be allocated to Zones with the largest number of competitors after the fill policy is completed.

## FILL POLICY

1. Cross Country Alberta Sport Manager in conjunction with the Zone Coordinators will regulate fills.
2. Each Zone will forward their official Zone qualifier results to the CCA office by **January 8, 2020**. The results must clearly indicate which athletes meet eligibility requirements. The list of qualifying athletes will be broken down by category including age group and gender. The list will also include the additional athletes who desire to attend the games, known as fills.
3. The ranking list will also indicate the ranking order of any additional athlete, known as fills. This is especially important for Zone qualifiers that are open to athletes from other Zones (such as using an AB Cup for a Zone qualifier).

Deadline date to submit Zone qualifier results and ranking of the additional athletes is by **January 8, 2020** to the CCA office.

### Fill spots will be distributed according to the following steps:

1. Automatic qualifier: Each Zone of the 8 Zones is allocated the following number of athletes:  
 U12: 2 males, 2 females  
 U14: 3 males, 3 females  
 U16: 3 males, 3 females
- A. Athletes and Fill Athletes will compete in their own category, (age and gender), for their respective Zone.
- B. A Zone may have more than the standard of athletes for a category, (eg. more than

athletes athletes for U12 females) only if other Zones have fewer than the allocated numbers for the same category.

- C. A Zone may have more than the allocated 3/3/2 (U16/U14/U12) athletes by gender within a Category if other Zones are not able to fill their complement.

There are a **maximum 128 athletes**, with 64 male and 64 female athletes competing if all categories are filled.

- 2. Fills: Each unclaimed spot for each category will be allocated to other Zones based on participation numbers at each Zone qualifier.

Respective Fill Percentages will be calculated and allocated to each Zones (rounded down).

After the initial fills procedure of the rounding down exercise is completed and fill positions are still vacant, the remaining fill positions will be drawn by the way of a double random draw procedure to allocated the next available athlete(s) in that (those) Zone(s)

Example: CATEGORY: U16, automatic qualifying numbers: 3 males per Zone:

	Z1	Z2	Z3	Z4	Z5	Z6	Z7	Z8	
# athletes at Zone qualifier	3	2	8	0	9	2	0	11	Total: 35
Automatic qualifiers	3	2	3	0	3	2	0	3	Missing: 8
Extras	0	0	5	0	6	0	0	8	Total: 19
Respective fill percentages	(0/19) *8 =0	(0/19) *8 =0	(5/19) *8 =2.11	(0/19) *8 =0	(6/19) *8 =2.53	(0/19) *8 =0	(0/19) *8 =0	(8/19) *8 =3.37	
Fill numbers rounded down	0	0	2	0	2	0	0	3	Total: 7

Remaining 1 spot in the example above will be random draw from Zones with skiers still available.

- 3. In the unforeseen situation where the total number of athletes that participated at trials in a category is less than the available positions, then the remaining positions will be redistributed to a different category (same gender) with the most Zone qualifier athletes.

Example: Only 22 athletes participated in all Zone trials in the U16 women category. The extra 2 positions will be given to the U14 category since they were a bigger field than U12 category in total numbers from all Zone qualifier.
